Forecast for Tuesday 10 May 2022

Weather: A brighter day with a lot of blustery showers. The showers will be most frequent over hills near to the West Coast, heavy at times and wintry over tops of munros. Showers less frequent over Caithness hills and hills towards Great Glen with more in the way of drier, brighter weather. Showers will merge into longer spells of rain and summit snow during evening.

Chance of cloud-free hill tops above 800m: 50%, best in east.

Low cloud and visibility: Good visibility away from showers with cloud bases about 700 to 800m. Frequent interruptions to poor visibility as showers pass by especially in west of area with more extensive cloud cover down to 600m.

Met Office Aberdeen Meteorologist's View

Note winter-like conditions over higher ridges and summits. Combination of strong winds, showers, wintry on the tops, and temperatures close to freezing.

Forecast for Wednesday 11 May 2022

Weather: Another cold, windy day in the hills with further blustery showers. The showers will be most frequent and heavy at times in west of area with sleet and snow on tops of the munros.

Maximum wind: Strong westerly winds with gales over the higher peaks, average speeds of 30 to 40mph and gusts 55mph.

Chance of cloud-free hill tops above 800m: 50% best in east of area.

Low cloud and visibility: Poor visibility as showers come along with extensive cloud cover down to 600m. In between the showers, the visibility will be good with clouds lifting and breaking up.

Temperature: **Glens:** Plus 6 Celsius rising to 12 Celsius.
At 800m: Plus 4 Celsius.
Freezing level: 1300m.
